

An updated women's dorm will almost double the number of beds, reaching a total of 32. The new addition of a women's bathroom/shower facility provides privacy and dignity.

A renovated chapel will increase seating capacity to 104.

The Mission prepares over 90,000 meals annually in this kitchen.

Improvements to the first and second floors will benefit 1,538 homeless men and women served annually.

Changes to the Men's Recovery Program will provide better security, centralization, and service delivery.
